

Cordless Cleaner CL001G / CL002G

Quiet & Powerful vacuuming

CL001G

+

CL002G

+

Low noise **54** [Mode 1] dB(A)
 [Mode 4: 65 dB(A)]

Achieved by redesigning the exhaust air flow path of the motor to reduce wind noise.

Noise absorbing sponge

Using softer elastomer for the part that fixes fan cover, the vibration of housing is reduced

BL
MOTOR

4-mode suction power selection with mode memory function

- The cleaner can memorize a previous power mode and resume vacuuming at the same mode as last time user turned off for user convenience.
- Power mode can be selected before the cleaner is turned on.
- Selected power mode is indicated by 4 green LEDs.

Suction power change button

ON/OFF button

Redesigned Floor/ Carpet T-nozzle

- Redesigned structure reduces the resistance caused by suction, providing smooth running.
- Redesigned inside air flow path reduces the noise made inside the nozzle.

Max sealed suction

aning

LED job light
also functions as a battery capacity warning lamp.

photo: CL001G

Pipe locking mechanism
Pipe is fixed with the locking mechanism to prevent it from accidentally coming off.

Cyclone attachment (option)
Centrifugal force separates fine dust, allowing the main unit of the cleaner to require about 80% less frequent dust disposal.

Cyclone pre-separation system separates dust from air.

Dust case
Easy disposal of the fine dust collected in dust case

Pipe with beveled end
Cleaning of tight places can be done without nozzle by using the beveled end of pipe as a nozzle.

Capsule type (CL001G)

Improved dust-resistance

When capsule is installed securely, two ribs inside capsule press the inside frame of filter to hold the filter tight.

HEPA filter is available

HEPA filter

Paper dust bag type (CL002G)

Improved dust-resistance

Moving stopper prevents front cover from closing if paper dust bag is not installed tight.

High performance dust bag set

High-performance dust bag that matches the shape of the dust collection space of the high vacuum model.
